

$$\begin{array}{ccccccc}
 E & = & S^{2n+1} & & \text{trivial} & & \text{trivial} \\
 \downarrow & & & & & & \\
 M & = & \mathbb{C}P^n & \# & T^{2n} & \# & N
 \end{array}$$

The diagram illustrates a relationship between two manifolds, E and M , and their decomposition. A vertical arrow points from E down to M . Above the arrow, the equation $E = S^{2n+1}$ is shown, followed by two "trivial" labels. Below the arrow, the equation $M = \mathbb{C}P^n \# T^{2n} \# N$ is shown. The visual representation shows three spheres (representing $\mathbb{C}P^n$ and N) connected by a central tube (representing T^{2n}).
